

Maple Class Learning Celebration Term 6

This term we really enjoyed learning about Space during **Science Week** when we experienced an astrodome and launched our own rockets on the school field.

Our fundraising event 'Break the Rules Day' was great fun and a huge success!

We have had so many wonderful learning opportunities including:

- Creating maps of our local area and going orienteering.
- Creating our own Branching databases in ICT
- Learning about 3D shapes with marshmallows
- Outdoor cooking with Wild Classroom UK
- Exercising with the local, professional athlete Gianni Frankis

In the very last week of the year, Maple class enjoyed a movie with popcorn and sweets as a reward for achieving the highest attendance in term 5. Well done us!

What a wonderful year we have had Maple Class! I wish you all the best for next year and the future! Keep being you!!!
